

Tequila Player: USER GUIDE

For Windows 7:

Copy the "tequilaradio.gadget" and the "tequilaradiomini.gadget" folders in to the gadgets folder. This is found at:

C:\Users**user name**\AppData\Local\Microsoft\Windows Sidebar\Gadgets

Insert your user name here

Right click on your desk top and selected "Add Gadget". The two gadgets should show in the window that opens. Double click on which one you want to open. Wait for the player to load (This may take a couple of minutes) and press play.

For Windows Vista:

Copy the "tequilaradio.gadget" and the "tequilaradiomini.gadget" folders in to the gadgets folder. This is found at:

C:\Users**user name**\AppData\Local\Microsoft\Windows Sidebar\Gadgets

Insert your user name here

Right click on your desk top and selected "Add Gadget". The two gadgets should show in the window that opens. Double click on which one you want to open. Wait for the player to load (This may take a couple of minutes) and press play.
